**The Iowa Counties Public Health Association (ICPHA) works to enhance local public health practice by assisting local public health agencies through advocacy, leadership, education, communication, and relationships with local, state, and national public health system partners.**

[www.i-cpha.org](http://www.i-cpha.org)

*“Being an ICPHA member helps me fulfill my responsibilities as a local health department director by providing an easy way to be connected and engaged in state and national public health advocacy and legislation.” ~ Linda Rosenberger, Tama County*

### ICPHA Purpose

- Speaking for, and acting on behalf of local public health agencies in Iowa.
- Promoting a local public health perspective in state health program and fiscal policy.
- Supporting public health systems to improve the health status of Iowa’s population.
- Developing the technical competence, managerial capacity, and leadership potential of the public health workforce.
- Promoting a vision of public health and leadership for local public health agencies.
- Developing and sustaining relationships with other organizations to improve health systems and health status.
- Serving as an exchange point for information and ideas to keep local health official informed.
- Promoting partnerships among federal, state, and local health officials.

### ICPHA Core Pillars

#### Develop a Strong Public Health Workforce

Ensure appropriate training materials exist and are made available to public health workforce.

Focus on orientation of local boards of health and new public health administrators.

**Members Only resources available on web site.**  
*(Ask our Executive Director for password – changes each membership year)*

#### Provide Public Health Advocacy and Promote Best Practices

Create and actively advocate for local, State and national policy statements that promote public health best practices.

Establish and maintain active relationship with Director and executive team of IDPH.

Enhance relationship with ISAC and other state partners (e.g., IPHA, IEHA, etc.) to maximize advocacy efforts to promote public health in Iowa.

#### Foster an Active Membership and Growth Plan

Develop and implement a “growth” plan to increase level of engaged members.

Develop a “communication” plan to encourage new members as well as establish community partners.

Develop and implement a media guide and ICPHA talking points.
